

# Ideas for 2-3's

## Communication, Language and Literacy

### Threading and Matching

Make a few shapes with paper or card and make a hole in the middle or side.

With a piece of ribbon they can thread the shapes onto the ribbon.

Talk about the colours, shapes, can they make their own shapes? How many can they thread? Hang them up to look at or start all over again.

(never leave children unattended)

## Maths

### Buckets and Pegs

A tin or bucket with a selection of pegs is a great way to explore numbers with the children.

They are also using their grip to place the pegs onto the bucket or tin

## Physical

### Ball Rolling

Roll the ball to each other taking turns  
This activity develops hand eye coordination and the ability to track moving objects

## Emotional and Mental well-being

### Silly Soup

Lets make some silly soup let the children decide what they want to put in their silly soup.

All you need is a large bowl and a wooden spoon get stirring and make up rhymes  
I have put in my soup a hat a bat and a cat.....
