

Ideas for 4-5's

Communication, Language and Literacy

Sharing a winter poem

There are lots of lovely poems out there to share with our little ones.

Make a theme of the poem (snowflake) and extend this into creative and physical activities. Encourage the children to dance and float like a snowflake falling from the sky to the ground.

Maths

Mitten maths

Using inventive ways to encourage your child to enjoy organising, dividing, grouping the right amount of snowflakes on the mittens. Cut out some mittens and add the snowflakes.

Physical

Snowflake making

Keep the love of snow going a little longer. Making snowflakes, decorating them and why not make a winter snow scene on a window or a door.

Remember, no snowflake is the same, they are all unique, just like our children!

Emotional and Mental well-being

Happy hot chocolate

After a busy day, out in the cold. There is no better way to warm up with a hot chocolate, family and talking about all the fun you have had.
