## Wacky Races

*BUILD YOURSELF THE LATEST SPORTS CAR OR A NEW FAMILY SUV WITH JUST A FEW ITEMS YOU'LL HAVE AROUND THE HOUSE.*

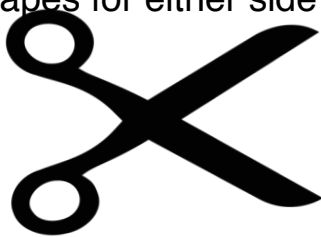

Find some old cardboard packaging, a cereal box would be a great place to start

Carefully draw the profile of your favourite car making sure the size is the same or greater than the length of the box you're using

Use the template you have made to cut out 2 of the shapes for either side of your car.

Cut out further shapes for the roof, bonnet, boot and wheels, then let your imagination run wild. Stick everything together with glue or tape depending on what you have lying :

# HOW FAR WILL YOU GO?
