PICTURE IT!

MOBILE DEVICE PHOTOGRAPHY

Taking pictures is something most of us enjoy, especially now, when we can do it so well on our mobile devices. Our Picture IT competition gives you the opportunity to show us your photography skills. Our competition has 5 categories. You can enter photographs in 1 or 2 of the categories. We have produced a photographers guide to help you compose your photos well and give you some great tips and tricks. Once you have taken your photos and chosen your favourites, you can submit them to us. Please only submit 1 photo. The details of how to submit are at the bottom of this document. Good Luck everyone!
