

Ideas for 4-5's

Communication, Language and Literacy

Make your own board game

Make your own board game.

This one is based on Dinosaurs, you can chose your child's favourite things to base the game on.

Discuss how many spaces, what prizes or penalties you might face as you make your way around the board

Maths

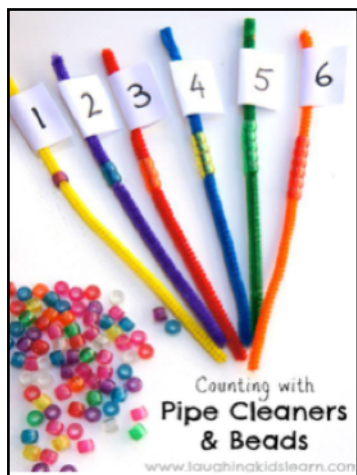

Missing Numbers

Pegs and lollipop sticks, creating number lines on the sticks and using the pegs to match numbers. You could also have lollipop sticks with missing numbers so the children can complete sequencing patterns.

Physical

Fine motor skills

Creative and physical, after adding numbers the pipe cleaners, use the beads, collecting and threading the beads onto the pipe cleaners developing fine motor skills.

Emotional and Mental well-being

Stacking Cups

Use the cups to stack them as high as possible. Give the child a task to complete, encourage achievement at completing a task. Well done, wow look how high, can you add one more, can we make it higher, brilliant job, these are all ways to build confidence and self esteem. Even when the wall falls, encourage to build back up to strengthen resilience.
