

Ideas for 4-5's

Communication, Language and Literacy

Story in an Egg Box

Create your own story in an egg box
Let the children use their imagination to develop and tell their own story.
This could be your favourite story or you can make up your very own story.

Maths

Bubble Wands

Can you make your very own bubble wands? Collect sticks/twigs from the

garden or when you are out. Mix water and washing up liquid for the bubbles. Fasten a pipe cleaner to the end of your stick and you are ready to make bubbles.

Igniting children's curiosity and developing maths skills.

Talk about how high the bubbles are going, The bubbles have gone over there.

How big is the bubble? How small is the bubble? Learning maths through play.

Physical

Hoopla

Have fun making a hoopla game.
All you will need are paper plates and kitchen roll tube, let the fun begin.
Playing hoopla will help develop hand eye coordination. This can be played in a group indoors or outdoors.

Play against your parents this will be fun.

Emotional and Mental well-being

Talk About Feelings

Ask your children to look in the mirror and make different faces, happy face, sad face, angry face etc.

This will allow the children to talk about how they feel, children at this time can feel anxious, missing family and friends at school.
