Sock Creatures

When we do the laundry we have all experienced the missing sock dilemma. You know, when you put a pair of socks into the dryer but end up with only one. Instead of throwing out those mismatched socks, you can easily turn them into any number of wonderful DIY crafts. See below for some links to online tutorials for how to reuse those lonely socks - sewing and no-sew projects.

Resources you will or may need depending upon which project you choose. Old socks, needle, cotton, scissors, glue, stuffing from an old cushion or pillow, rice, rubber bands, string, felt, ribbon, googly eyes.
