

# Ideas for 4-5's

## Communication, Language and Literacy

### Our House

Make pictures for the The Three Little Pigs. Can you tell the story? Talk about the houses they built, what did they use? Use a selection of materials for the children to create their ideas. Use the images to retell the story.

## Maths

### Balancing

Let's look at how we can build a structure and see if the items will stay on the top. Use items in the house to build bridges and towers with items that may stay on the top.

## Physical

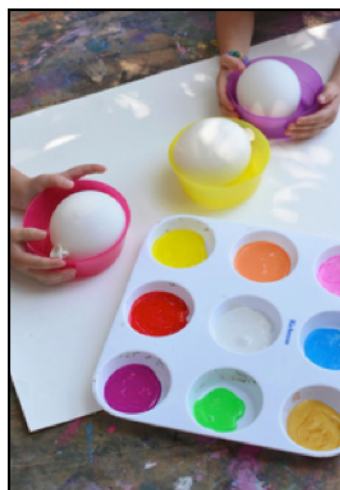

### Baking together

Baking together can be lots of fun! Finding the ingredients, getting all the equipment ready. Reading the recipe and learning how to whisk, mix and count out the ingredients. You then you get to eat what you have baked!

## Emotional and Mental well-being

### Making pictures

Painting can be lots of fun! If the weather is nice, find a large piece of paper or old wallpaper. Blow up a few balloons and fill with water. Roll the balloons in the paint and then roll them on the paper.
